**CLEAN HAND®
BLACK NITRILE GLOVES**

FOR IMMEDIATE RELEASE:

**NEW! PROTECT HANDS WITH CLEAN HAND® BLACK NITRILE
GLOVES FROM SAFETY TODAY**

GROVE CITY, OH—December 19, 2013—Safety Today is pleased to introduce Clean Hand® Powder-Free Black Nitrile Gloves. This premium product is available for a fraction of the price that other suppliers are asking, all while offering the quality that Safety Today customers have come to expect and rely on.

This single-use, non-sterile glove offers a great solution for maintaining an unsoiled, professional appearance in applications where dirt, grime, inks and other materials accumulate. Hands are often under the spotlight in work environments, especially in places like salons and tattoo parlors; Clean Hand® Powder-Free Black Nitrile Gloves are not only functional, but are also more stylish than latex gloves. These gloves offer excellent dexterity and comfort too, and because they are latex- and powder-free they won't cause allergies or dry out hands.

Aside from a sleek appearance and supreme comfort, Clean Hand® Powder-Free Black Nitrile Gloves also offer superior protection. The Black Nitrile Gloves are roughly 4 millimeters in thickness and provide three times more puncture and chemical resistance than latex gloves. Plus, when it comes to prices, our competitors—private label or other brands—simply don't compare.

Clean Hand® Black Nitrile Gloves offer value and proven performance for auto mechanics, law enforcement, maintenance departments, industrial applications, tattoo parlors, beauty shops and all other applications where dirt and grime build up on gloves. Clean Hand® Black Nitrile Gloves are available in small, medium, large and extra-large sizes, making them an easy fit on any hand.

Save money without losing quality—try Clean Hand® Black Nitrile Gloves from Safety Today!

ABOUT SAFETY TODAY

Safety Today, Inc. was founded in 1946 and is one of the largest full service safety equipment distributors in North America with focus in the Glass, Metalworking & Equipment Manufacturing, Automotive, Cruise Line and Food Processing sectors, protecting workers and their worksites for over 64 years. We work closely with our customers to provide personalized risk/cost-reduction solutions ranging from a comprehensive product offering to full-service training and work-site/job hazard assessment capabilities. Safety Today is headquartered in Grove City, Ohio, with locations across the United States, and in Brazil and Mexico. For more information about Safety Today, please visit www.safetytoday.com.
